Objective

I'm a third-year Computer Science student specializing in Software and Web Development, with knowledge of databases and SQL, currently learning .NET, and a solid background in front-end development. I am seeking an internship to gain practical experience and enhance my technical skills.

Education

Bachelor of Computer Science

Faculty of Computers and Information, 6th of October University

September 2023 – 2027

- Major: Computer Science
 - Grade: **3.4 CGPA**
-

Internships

Full-Stack .NET Training – Digital Egypt Pioneers (September 2025 –Present)

- Learning and applying .NET for full-stack web development.
- Building projects with front-end (HTML, CSS, JS) and back-end (C#, SQL).
- Gaining experience in databases, deployment, and teamwork

Technical Skills

- C#, JavaScript, HTML, CSS, C++, Python
 - NET, Visual Studio, Git and GitHub
 - object-Oriented Programming (OOP), Software Engineering, Problem Solving
 -  SQL, Database Managemen
-

language skills

- Arabic: Native
 - English: Good (reading, writing, speaking)
-

Projects

- Developed a Python application solving the classic river crossing problem using BFS, DFS, and A* algorithms
- Applied **AI concepts** including search strategies, problem-solving, and performance comparison.
- Built a Tkinter GUI for visualization; project available on GitHub:[
[ziadelmaghrabi/Farmer-Crossing-Ai: AI implementation of the classic Farmer-Wolf-Goat-Cabbage river crossing problem using BFS, DFS, and A* with a Python GUI.](https://github.com/ziadelmaghrabi/Farmer-Crossing-Ai)]
